

WINHILLS

Key Stage 1

Fortnightly Newsletter

Year 1

In year One, the children continue to be busy learners! They have explored some more place value and addition and subtraction in Maths. The children have been using Numicon to support their learning with visual representations. In English, the children have been planning their own space themed stories. They have already written the introduction and we are all excited to see where our writing takes us!

Year 2

In year Two, the children have been exploring data handling. They have enjoyed lots of outside learning where they have all collected leaves to create a tally chart and then they displayed their data in pictograms and bar chart. The children have also planned their own space stories with more detail to include expanded noun phrases, commas and time connectives. In Science, the children have been learning all about recycling.

ICE Zone

The children are continually busy learning in the ICE zone. Inside, the children have been practicing their French and developing more of their programming skills using the BeeBots and Scratch. Outside, the children have been on phonic hunts and developed their creative writing.

Reminders

- Please can all children have the following available in school everyday: welly boots, hats, scarves, gloves and a jumper. PE days are on Tuesdays for Key Stage One. Please can all children have a full PE kit (shorts, jogging bottoms, trainers/plimsolls and a white top) in school.
- The Christmas fair is on Thursday 1st December 3:00—5:00pm. Donations for the bottle tombola and raffle would be gratefully received.
- The children need to have completed their homework fully by Monday 19th December to receive their full reward day.
