Seasons

Map of the UK

Questions to think about

- What is the weather like today?
- What months are in each season?
- Can you talk about the weather at different times of the year?
- Can you identify different countries, cities and features on a map?

Key vocabulary

- Capital city – a city where a country's government is based
- Country – land controlled by a single government
- Map – an image of an area, showing features or characteristics
- Weather – daily state of the atmosphere, or air, in a given place
